

AUTHORIZED TO TEST (ATT) TIME TABLE

TRAINING DURATION: 2 days
DATE START : 30 January 2024, Tuesday
DATE COMPLETE: 31 January 2024, Wednesday
LESSON TIME: 9:00am to 4.30pm

Dates	Topic	Venue
30 Jan 2024, Tue	Classroom Briefing 1. Safety Precautions for Internal Wiring Testing 2. Visual Inspection and Testing Procedures 3. ATT Form Filling for Sesco Submission purpose Practical Session: 1. Fault finding on consumer circuits.	PLP
31 Jan 2024, Wed	Practical Session: 2. Perform testing of consumer circuits (using Three phase)	PLP

Note:

PPE: Safety shoe, safety helmet, rubber gloves

Test set equipment:

1. Multi-meter (Digital or Analog)
2. Insulation Resistance (Meggar)
3. Earth Resistance Testset
4. Earth fault loop impedance Testset
5. RCD/RCCB Tripping Time Testset
6. Phase sequence testset (Rotation)
7. Cable x3 length about 12" (for phase sequence)
8. Safety rubber gloves (for Live test requirement)
